PROJECTS

Auto-Pilot YouTube Uploader using N8N

Built a workflow that uploads videos to YouTube automatically without manual steps, using N8N.

Personal Portfolio Website

Designed and developed a responsive portfolio using HTML, CSS, and JavaScript to showcase my skills and projects [Click here](#).

YouTube Channel Video Downloader (Python)

Created a Python tool that downloads all videos from a YouTube channel using just the channel link. It uses the pytube library to fetch and download videos efficiently, handling playlists and bulk downloads. This project improved my understanding of APIs, Python scripting, and file handling.
